Work Experience of ESRM MYP5 Students

Dear Madam or Sir,

As part of the European School IB Curriculum, all Year 10 students are required to complete a two-week work experience placement (internship). Following their placement, students prepare a detailed report reflecting on their experiences and the insights they have gained. At the European School RheinMain in Bad Vilbel, this internship is a key element of our career guidance programme.

During their work experience all our students are covered by the school insurance Hessische Unfallkasse following § 2 Abs. 1 Nr. 8b; 7 Sozialgesetzbuch – Gesetzliche Unfallversicherung.

An important aspect of this project is that students independently seek and apply for suitable internship opportunities. We would therefore be delighted if you would consider our student's application and, if possible, support them throughout their placement. Your guidance and assistance would provide valuable practical insights and contribute significantly to their personal and professional development. Should you have any questions regarding the internship programme, please do not hesitate to contact us.

We would be pleased to provide any further information you may require.

With kind regards,

Dr. Daniella Schmitt
Deputy Director
